SINGLE ARTICULATED AERIAL PLATFORM RANGE

Max working height with 1 operator(m) 21 (1120 Kg)	Max working height with 2 operators(m) 21 (200 Kg)	Platform floor height with 1 operator (m) 1.9 (120 Kg)
Platform floor height with 2 operators (m) 19 (200 Kg)	Max working outreach with 1 operator (m) 12 (120 Kg)	Max working outreach with 2 operators (m) 9 (200 Kg)
Load capacity 1 operator (kg) 120	Load capacity 2 operators (kg) 200	Standing engine height (mm) 3000
Standing engine length (mm) 6160	Standing engine width (mm) 2100	Sewing turret 360°
Platform 1400x700xh1100 - Aluminium	Controls Proportional hydraulic type	Slewing platform 90° ex + 90° sa
Pantograph Double bar, all steel	Stabilizers Proportional hydraulic type	Minimum installation (t) 3.50

DOUBLE ARTICULATED AERIAL PLATFORM RANGE

Max working height with 2 operators(m) 23.6 (200 Kg)	Max working height with 1 operator (m) 23.6 (200Kg)	Platform floor height with 2 operators (m) 23.6 (200Kg)	Max working outreach with 1 operator(m) 12.2 (200 Kg)
Load capacity 2 operators (kg) 200	Load capacity 1 operator (kg) 200	Standing engine height (mm) 2695	Standing engine length (mm) 6905
Standing engine width (mm) 2100	Standing engine height (mm) 2695	Slewing turret 360°	Platform 1400 X 700h 1100mm Aluminium (opt)
Controls aerial leads - electro-hydraulic proportional controls - Stabilization hydraulic controls	Stabilizers Front +H rear within the vehicle's profile	Slewing platform 90° right + 90° left	Pantograph Double bar, all steel
		Minimum installation (t) 3.5 t
